Lady English, CEO of Fountain Company created her product line after visiting the hot mineral springs in Bath Mountain, Jamaica which is known for its therapeutic and miracle healing properties. “The “miracle” for me was the deep tissue massage I received with the Pimento Oil. The oil absorbed its way into my open pores, tingling with what felt like hot medicine going straight into my nerve damaged shoulder, numb arm and bulging neck! The feeling was the relief I’d been seeking – instant anesthesia. The tightness and soreness I’d arrived there with just disappeared. After months of physical therapy, bio-freeze, acupuncture, pills and cortisone shots, I felt relaxed, flexible and normal again!”
