

Dunn's River Falls won't be divested

Minister of Information and the Public Service, Senator Arthur Williams, says Dunn's River Falls will not be divested by the Government of Jamaica.

In a release to clarify information circulated by the Government information arm, JIS, Williams emphasised that Dunn's River Falls is not among the UDC attractions slated for privatisation by way of concession agreement.

The UDC attractions slated for privatisation by way of concession agreement, that is, contracting-out the management and development of the assets, are as follows:

- Reich Falls
- Green Grotto Caves
- Two Sisters Cave
- Laughing Waters Restaurant and Beach Club
- Turtle River Park
- Top Forte/Belmont/Roaring River/Malvern Park

However, the minister noted that while Dunn's River Falls does not form part of the entities for contracting out, the consultants, Deloitte and Touche Tohmatsu, will be engaged to provide the Government with a strategy to improve the profitability of the operations, with the Government of Jamaica retaining management of the facility.
