

Caribbean Airlines adding extra flights from New York

Caribbean Airlines wishes to advise that the airline continues to operate extra flights to and from New York to Jamaica, Guyana and Trinidad to transport passengers who were inconvenienced due to the weather situation in New York over the last weekend.

Hurricane Irene caused the cancellation of thirty-four (34) Caribbean Airlines and Air Jamaica flights.

Whilst additional aircraft have been leased to continue to assist in the effort of moving remaining passengers to and from New York, we are working with a maintenance delay, with the leased aircraft which have delayed this recovery process.

Caribbean Airlines understands the inconvenience at this time and we are working with the resources at hand to be able to clear the backlog which is spread throughout the region.

Passengers are encouraged to visit the Caribbean Airlines website at www.caribbean-airlines.com or call the following numbers for all updated travel information. Please note that ALL TIMES ARE LOCAL.

Caribbean Airlines
