

Breathless Montego Bay Resort to be opened by month end

AMResorts has announced that it will open Jamaica's newest hotel, Breathless Montego Bay, by the end of February.

The 150-room resort, located next door to sister properties, Secrets Wild Orchid and Secrets St James, is an adult-only five-star resort, targeting couples, singles and honeymooners. The hotel was expected to be opened in December, but AMResort's senior vice president of marketing, Colette Baruth said weather contributed significantly to the delay. He was addressing a media conference at the Caribbean Hotel and Tourism Association's Caribbean Travel Marketplace, now on at the Atlantis, Paradise Island, in The Bahamas, AMResorts also operates the Sunscape (formerly Sunset Beach Resort and Spa), which was developed for families, couples and friends.
