

How Smart Is Your Right Foot?

How Smart Is Your Right Foot? Just try this. It is from an orthopedic surgeon.

This will boggle your mind and you will keep trying over and over again to see if you can outsmart your right foot, but you can't. It's preprogrammed in your brain!!

1. While sitting where you are, at your desk, in front of your computer, lift your right foot off the floor and make clockwise circles.
2. Now, while doing this, draw the number "6" in the air with your right hand. Your foot will change direction!
3. I told you so!!!! And there's nothing you can do about it. You and I both know how stupid it is, but before the day is done, you are going to try it again, if you've not already done so.
